

For each of your reference groups, describe the following:

- 1) Tell if it is primary or secondary
- 2) List names of various types of members (based on their status in group)
- 3) What are the norms of the group?
- 4) What is your role? Status?
- 5) Why are you where you are in the group?
- 6) What is your reason for joining the group?
- 7) How long will you remain a part of this group? Explain.

Example: **The Plastics**

The Plastics would be a primary group within the secondary group of a school. Gretchen and Karen are the followers. Regina George would be the leader. The norms: they only wear pink on Wednesdays, you can only wear your hair up once a week, you write in the burn book, etc. Cady would say that she joined the group to fit in at a new school and she would be a member until she changed her mind, didn't want those friends anymore or graduated.
